The publisher makes every reasonable best effort to ensure the accuracy and completeness of the information and answers contained in this book. Due to the ever changing nature of applicable laws and practices, the reader is *cautioned and advised to always consult with the instructor when questions* arise. Test answers have been checked for correct correlation with the question answered. If the reader encounters a questionable answer, the reader should always consult the text or the instructor for a more complete answer and analysis of the answer. Should the reader believe that an alternative interpretation of the information contained in this book is possible, he or she is encouraged to consult with the instructor.
